

Marketing Funnel & Customer Journey

What is a Marketing Funnel?

A Marketing Funnel is a visual representation of the journey a customer takes from discovering a product to becoming a loyal customer.

It is called a funnel because:

- Many people enter at the top.
- Fewer people move to the middle.
- Even fewer become customers at the bottom.

Example:

1000 people see an advertisement.

↓

200 visit the website.

↓

50 show interest.

↓

10 purchase the product.

This forms a funnel shape.

Why is it Called a Funnel?

Imagine selling a course online.

Stage	People
Advertisement Seen	10,000
Website Visits	2,000
Interested People	500
Purchases	100

Notice the number decreases at each stage.

This creates a funnel.

Stages of Marketing Funnel

The most common funnel is:

Awareness

Interest

Consideration

Conversion

Loyalty

Advocacy

Let's understand each stage.

Stage 1: Awareness

What Happens?

The customer becomes aware that a product or business exists.

Before this stage:

The customer doesn't even know your business exists.

Examples

A person:

- Sees an Instagram ad
- Watches a YouTube video
- Reads a blog
- Finds your website on Google

Now they know your brand exists.

Goal

Create visibility.

Make people aware.

Real Example

A new pizza restaurant opens.

They create:

- Instagram page
- Google Business Profile
- Facebook page

People start noticing the restaurant.

Awareness achieved.

Stage 2: Interest

Now the customer becomes curious.

They want to learn more.

Examples

Customer:

- Visits website
 - Checks menu
 - Watches videos
 - Reads reviews
-

Goal

Keep the customer engaged.

Provide useful information.

Example

Customer sees a pizza advertisement.

Now they:

- Visit website
- Check prices
- Look at photos

Interest has been generated.

Stage 3: Consideration

The customer starts comparing options.

Example

Customer compares:

Pizza Shop A

vs

Pizza Shop B

vs

Pizza Shop C

Customer Questions

- Is it good?
 - Is it affordable?
 - What do reviews say?
 - Is delivery fast?
-

Goal

Convince customers that your solution is better.

Marketing Tools Used

- Testimonials
 - Reviews
 - Case Studies
 - Product Demonstrations
-

Stage 4: Conversion

This is where the sale happens.

Examples

Customer:

- Buys pizza
 - Purchases a phone
 - Enrolls in a course
 - Books a hotel
-

Goal

Convert visitors into customers.

Conversion Examples

Website visitor

Adds product to cart

Makes payment

Conversion completed

Stage 5: Loyalty

Many businesses make a mistake.

They focus only on getting new customers.

The real profit often comes from repeat customers.

Example

A customer orders pizza today.

If they order again next week,
they become a loyal customer.

Goal

Keep customers coming back.

Methods

- Loyalty programs
 - Discount coupons
 - Membership plans
 - Email campaigns
-

Stage 6: Advocacy

This is the best stage.

The customer promotes your business for free.

Example

Customer says:

"That pizza was amazing!"

and tells friends.

Or posts on Instagram.

Benefits

Free marketing.

Trusted recommendations.

More customers.

Customer Journey

The funnel represents the customer journey.

Example:

Rahul sees a sneaker advertisement.

Awareness

Instagram ad appears.

Interest

Rahul visits website.

Consideration

Compares with other brands.

Conversion

Purchases shoes.

Loyalty

Buys again after two months.

Advocacy

Recommends to friends.

This entire process is called the Customer Journey.

Real-Life Example: Smartphone Purchase

Awareness

Customer sees smartphone advertisement.

Interest

Visits website.

Consideration

Watches review videos.

Conversion

Buys phone.

Loyalty

Uses same brand again.

Advocacy

Suggests phone to friends.

Digital Marketing Channels at Each Stage

Funnel Stage Marketing Channel

Awareness Instagram Ads, YouTube Ads

Interest Blog Posts, Videos

Consideration Reviews, Testimonials

Conversion Website, Landing Page

Loyalty Email Marketing

Advocacy Referral Programs

Practical Activity

Ask students:

Example 1

How did you decide which college to join?

Most answers will naturally follow the funnel.

Awareness → Interest → Consideration → Conversion

Example 2

How do you purchase a mobile phone?

Students will explain:

- See ad
- Watch reviews
- Compare prices
- Buy

Again, that's the funnel.

Important Terms

Lead

A potential customer who has shown interest.

Example:

Someone fills out a contact form.

Prospect

A lead likely to become a customer.

Conversion

When desired action is completed.

Example:

Purchase made.

Retention

Keeping customers engaged.

Referral

Customer brings another customer.

Remember:

Not everyone who sees your advertisement will become a customer. The job of Digital Marketing is to move people step-by-step through the funnel until they become loyal customers and advocates of the brand.

Homework

Pick any brand (Amazon, Swiggy, Zomato, Nike, etc.) and identify:

1. How they create Awareness.
2. How they generate Interest.
3. How they encourage Consideration.
4. How they achieve Conversion.
5. How they build Loyalty.
